

Differential Gene Expression Summary

Output	Results
Total genes in output table	61,994,946
Number of genes tested	41,079
Number of significantly differentially expressed genes, if reported	3,792
Genes with positive log2 fold change.	1,422
Genes with negative log2 fold change.	2,370
Adjusted p-value or FDR threshold used.	<0.05
